

AMENDMENTS TO THE DRAWINGS:

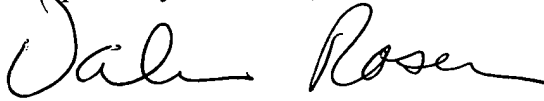

Attached drawing sheets are attached to this Response as an Appendix. These sheets comprise new Figures 5C, 5D, and 5E. The submission of Figures 5C, D, and E does not constitute new matter. The application includes the text and figures of U.S. Patent Application No. 10/370,783 ("the '783 application"), which is incorporated by reference in the current application. The subject matter of Figures 5C, D, and E in the current application is the same as the subject matter of Figures 5C, D, and E in the '783 application.

REMARKS

The amendments to the drawings are made to add drawings to the application that were inadvertently omitted at filing. Nonetheless, Applicant submits that the drawings do not constitute new matter, as discussed above, and that the application met all the requirements of 37 C.F.R. § 1.53 as of its filing date, January 22, 2004.
